## Crash Course World History: Haitian Revolution #30

### **Key Concept 5.2 Imperialism and Nation-State Formation**

As states industrialized during this period, they also expanded ex colonies and established new types of colonies and transoceanic empire warfare and diplomacy both resulted in and were affected by this process empire-building. The process was led mostly by Europe, although not all affected equally, which led to an increase of European influence around United States and Japan also participated in this process. The growth of challenged the power of existing land-based empires of Eurasia. New id
